DETAILED ACTION

Allowable Subject Matter

Claims 28-52 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or teach a linear motor with a tubular vibrator made of magnetic material in combination with the other features of claim 1, 50 and 51.

Denne shows a moving magnet sleeve assembly of an unspecified material in figure 21 between an inner and outer yoke. Denne does say in column 18 lines 5-8 that the outer case and inner rod are made of steel in the moving magnet embodiment. Also the inner sleeve is connected by a number of rods to the outside world, which would make the inner sleeve unsuitable for a return flux path. Furthermore, in the moving coil embodiment, the coil is attached to a non-magnetic sleeve as described in column 19 lines 1-5. For those reasons, the moving magnet embodiment of Denne is believed to teach away from using a tubular vibrator made of magnetic material.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Judson H. Jones whose telephone number is 571-272-2025. The examiner can normally be reached on 8-4:30 M-F.
